LAPIS LAZULI HAS BEEN MINED IN AFGHANISTAN and exported to the Mediterranean world and South Asia since the Neolithic age.<sup>19</sup> Lapis lazuli beads have been found at Mehrgarh, a neolithic site near Quetta in Pakistan, on the ancient trade route between Afghanistan and the Indus Valley, dating to the 7th millennium. Quantities of these beads have also been found at 4th millennium BC settlements in Northern Mesopotamia, and at the Bronze Age site of Shahr-e Sukhteh in southeast Iran (3rd millennium BC). A dagger handle with a lapis handle, a bowl inlaid with lapis, and amulets, beads, and inlays representing eyebrows and beards, were found in the Royal Tombs of the Sumerian city-state of Ur from the 3rd Millennium BC. Lapis was also used in ancient Mesopotamia by the Akkadians, Assyrians, and Babylonians for seals and jewelry. In the Mesopotamian poem, the Epic of Gilgamesh (17th-18th Century BC); one of the oldest known works of literature, lapis lazuli is mentioned several times. The Statue of Ebih-II, a 3rd millennium BC statue found in the ancient city-state of Mari in modern-day Syria, now in the Louvre, uses lapis lazuli inlays for the irises of the eyes.<sup>20</sup>

LAPIS LAZULI ALSO MADE ITS WAY across the Mediterranean to ancient Egypt, where it was a favorite stone for amulets and ornaments such as scarabs; Lapis jewelry has been found at excavations of the Predynastic Egyptian site Naqada (3300–3100 BC). At Karnak, the relief carvings of Thutmose III (1479-1429 BC) show fragments and barrel-shaped pieces lapis lazuli being delivered to him as tribute. Powdered lapis was used as eyeshadow by Cleopatra.

Quantities of these beads have also been found at 4th millennium BC settlements in Northern Mesopotamia, and at the Bronze Age site of Shahr-e Sukhteh in southeast Iran (3rd millennium BC). A dagger handle with a lapis handle, a bowl inlaid with lapis, and amulets, beads, and inlays representing eyebrows and beards, were found in the Royal Tombs of the Sumerian city-state of Ur from the 3rd Millennium BC. Lapis was also used in ancient Mesopotamia by the Akkadians, Assyrians, and Babylonians for seals and jewelry. In the Mesopotamian poem, the Epic of Gilgamesh (17th-18th Century BC); one of the oldest known works of literature, lapis lazuli is mentioned several times. The Statue of Ebih-Il, a 3rd millennium BC statue found in the ancient city-state of Mari in modern-day Syria, now in the Louvre, uses lapis lazuli inlays for the irises of the eyes.<sup>20</sup>

LAPIS LAZULI ALSO MADE ITS WAY across the Mediterranean to ancient Egypt, where it was a favorite stone for amulets and ornaments such as scarabs; Lapis jewelry has been found at excavations of the Predynastic Egyptian site Naqada (3300–3100 BC). At Karnak, the relief carvings of Thutmose III (1479-1429 BC) show fragments and barrel-shaped pieces lapis lazuli being delivered to him as tribute. Powdered lapis was used as eyeshadow by Cleopatra.

### Lapis Pro Italic 12/14

LAPIS LAZULI HAS BEEN MINED IN AFGHANISTAN and exported to the Mediterranean world and South Asia since the Neolithic age.<sup>19</sup> Lapis lazuli beads have been found at Mehrgarh, a neolithic site near Quetta in Pakistan, on the ancient trade route between Afghanistan and the Indus Valley, dating to the 7th millennium. Quantities of these beads have also been found at 4th millennium BC settlements in Northern Mesopotamia, and at the Bronze Age site of Shahr-e Sukhteh in southeast Iran (3rd millennium BC). ### **Lapis Pro Bold Italic 12/14**

LAPIS LAZULI HAS BEEN MINED IN AFGHANISTAN and exported to the Mediterranean world and South Asia since the Neolithic age.<sup>19</sup> Lapis lazuli beads have been found at Mehrgarh, a neolithic site near Quetta in Pakistan, on the ancient trade route between Afghanistan and the Indus Valley, dating to the 7th millennium. Quantities of these beads have also been found at 4th millennium BC settlements in Northern Mesopotamia, and at the Bronze Age site of Shahr-e Sukhteh in southeast Iran (3rd millennium BC). A dagger handle with a lapis handle, a bowl inlaid with lapis, and amulets, beads, and inlays representing eyebrows and beards, were found in the Royal Tombs of the Sumerian city-state of Ur from the 3rd Millennium BC. Lapis was also used in ancient Mesopotamia by the Akkadians, Assyrians, and Babylonians for seals and jewelry. In the Mesopotamian poem, the Epic of Gilgamesh (17th-18th Century BC); one of the oldest known works of literature, lapis lazuli is mentioned several times. The Statue of Ebih-II, a 3rd millennium BC statue found in the ancient city-state of Mari in modern-day Syria, now in the Louvre, uses lapis lazuli inlays for the irises of the eyes.<sup>20</sup>
