CHUNKY & BRIGHT

CHUNKY BOLD & BRIGHT

Quail watching from the kitchen window and listening to old fiddle tunes while the cornbread bakes when suddenly sunshine bursts bright between dark rain clouds and the distant rolling hillside kind of cozy, quirky font family.

Quirkwood is a set of four fonts: Highlight, Regular, Shadow and Bright. They can be combined in layers to create striking dimensional effects.

Quirkwood Text has three weights: Regular, Medium and Bold. Plus Bright Medium and Bold alternate versions with the combined highlight effect. All these fonts contain small caps, stylistic & contextual alternates and standard & discretionary ligatures.

Quirkwood Chunky and Chunky Bold are caps and small caps only for use in display settings with a bolder, chunkier reverse stress serif twang.

ALTERNATE FEATURES

nbvb
gngi
m

The **Contextual Alternates** feature will automatically swap out certain glyphs depending on the surrounding glyphs. The lower case **b** will have a bottom serif to the left after some glyphs, or when preceded by a space. The ear on the lower case **g** will pop up or down as needed to allow for tighter spacing. Many other glyphs will have slightly longer or shorter serifs that swap out depending on the negative spaces around them.

Stylistic Alternates

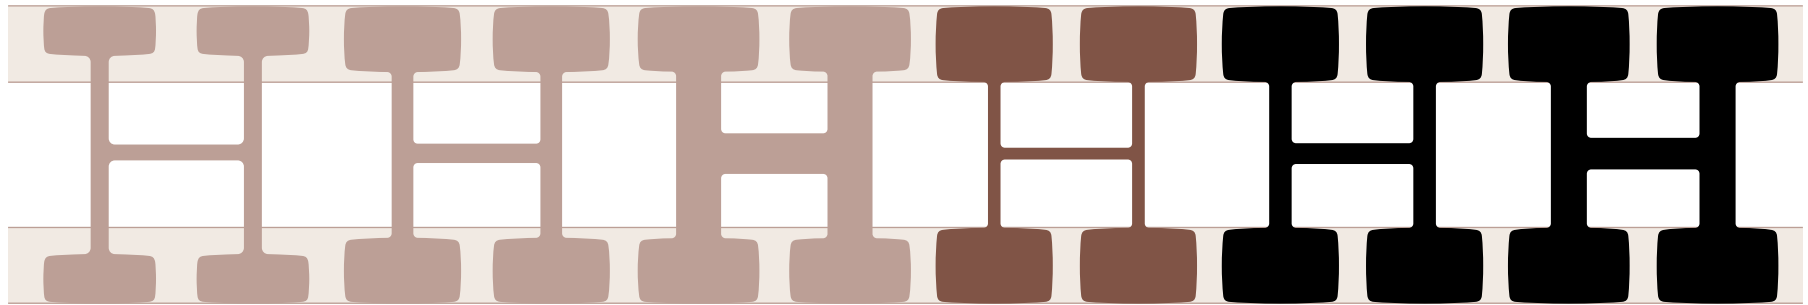

will let you choose a few different glyphs manually to suit.

Q Q T T r r y y

The lower case y option can be controlled by a stylistic set that will replace all the instances of the y through out the text.

QUIRKWOOD CHUNKY

All Quirkwood weights contain small caps.

The two Quirkwood Chunky sets contain caps and small caps **ONLY**. Small caps replace all the lower case glyphs. The chunky reverse stress serif is where the Quirkwood Chunky sets differ from the rest of the Quirkwoods.

The Chunky sets maintain the thick serif chunkiness of Quirkwood Regular but have less stroke contrast. They read better at smaller sizes and can have a bolder impact in display settings. For use in display settings, both Chunky sets include an alternate Bright version with the highlights applied.
